### ABOUT THE PROGRAMME

This course gives you the mind-set, skills and experience you need to understand how the dynamically developing finance and accounting industry operates. The overall aim of the programme is to immerse the student in a fascinating subject that can lead to a successful international business career. The programme is designed to develop a broad understanding of accountancy and finance in an international context. After graduation you could choose to go into finance and accounting or any other professional or managerial role helping organisations make well-informed financial decisions about current or future plans and strategies. The programme also covers business and leadership skills such as negotiation, communication, decision making, problem solving and critical thinking –providing you with a competitive edge in the global job market.

### TEACHING AND LEARNING

The programme focuses on a practical approach to teaching, reflected in the practice-oriented coursework. Our BA in International Finance and Accounting aggregates theoretical knowledge from management and financial fields that is expanded by the practical parts of the course where students are expected to deal with a number of case studies. The course has a great mix of theoretical fundamentals, practical classes, simulation games and international projects in the area of finance management and accounting. Assessment methods include essays, reports, presentations and case studies, as well as time-constrained in-class tests and exams. Classes are held on weekdays in small cohorts to ensure you receive full support and get the best out of the programme and increase the effectiveness of the educational process. Our lecturers include international experts and practitioners, whose daily work is related to international finance and accounting.

in Europe

## WHAT OUR PARTNERS SAY

**KRZYSZTOF KWIECIEŃ,**  
Deloitte Central Europe Lead HR Director

We employ international students and graduates of UITM. After graduation, our employees often decide to move to Deloitte offices in other countries – but also in

their home countries, if we have an office there and are currently recruiting. We appreciate cooperation with the graduates of UITM, because they display highly developed analytical skills, can work on their own and in a team. But Primarily, they possess practical skills, which we appreciate the most.”

## WHAT OUR GRADUATES SAY

Hello, my name is Mohammed Mzabi, I am from the scientific capital of Morocco. I like travelling, reading, and listening to music. I came to UITM to become a successful person. The idea of studying abroad is fascinating! However, the reality of leaving home is pretty scary. At least, I thought so. I made my whole family drive me to the airport. I gave them about a million hugs. But ultimately, I had to say goodbye and board the plane by myself to achieve the main goal of my life which is to become an entrepreneur and have a successful life. Let the adventure begin!

Hi there, my name is Henry Karukuru. I'm from the sunny Pacific island state of Papua New Guinea (PNG). I am currently studying for my Master's in International Management. Personally, I've been a lover of history. Having a background in Politics and International Relations, it comes as no surprise. And what place is better to experience history than Europe and Poland specifically. And that's how I ended up here. I've always been a firm believer in the power of what experience and knowledge can have put together. And so UITM and Poland have given me the wonderful opportunity to attain both, which I can use to its fullest potential back home in PNG.
