About **UITM**

The University of Information Technology and Management in Rzeszów was established in 1996.

It is the largest and highest-ranked private university in southern-east Poland. Currently, there are four faculties at UITM: Management, Applied Computer Science, Media and Social Communication, Medical Faculty.

We are a forward-thinking University committed to the transformative power of education, research, development and support of our students and staff. In addition to educational activities, we run many research projects and we organize numerous scientific and industry conferences. We have developed a strong relation with businesses and local government that benefits us all. In the last 25 years, over 60 thousand people have studied here, both from Poland and abroad. UITM is home to communities of students and scholars from all over the world.

Ambitious goals laid out in the University Strategy for 2020-2024 are set to increase the international student community to 45%. For many years we have been conducting online classes using professional distance learning and online collaboration tools. Currently, students and teachers can use the Blackboard platform and Cisco Webex. The American Blackboard Learn platform is one of the most comprehensive educational platforms in the world. Students can reach various learning materials using notebooks and smartphones. Cisco Webex is the leading enterprise solution for video conferencing, online meetings, screen share, and webinars. Thanks to these two platforms, students can participate in online classes conducted by professors, do projects, and collaborate with other students using advanced collaboration tools for text, voice, and video communication.

- Bus - The price of a bus ride to the city centre varies from 0,4 - 1,5€.

RZESZÓW

Academic Center of Poland

The Region of Podkarpackie

Is a gateway to the European Union, a land of modern economy, with unpolluted natural environment, a wealth of culture, and many opportunities. Here, innovative technologies of aerospace, information technology and automotive industries come side by side with active leisure, mountain adventures, multiculturalism and creativity. An International airport, EU border crossings, East-West motorway, areas designated for investments and resources of well-educated young people are the reasons why global companies bring their business here.

And after work? Anything goes! From the buzzing atmosphere of urban cafes, pubs, restaurants, theatres, concerts, to recreational activities on the ground, on the water and in the air, amidst wildlife, Carpathian landscapes, and legends of Bieszczady and Beskid Niski.
