[The Integro multi-search engine \(library catalogue\)](https://biblioteka.wsiz.rzeszow.pl/integro/site/startpage)

The electronic catalogue (Integro multi-search engine) informs about the collection of our Library.

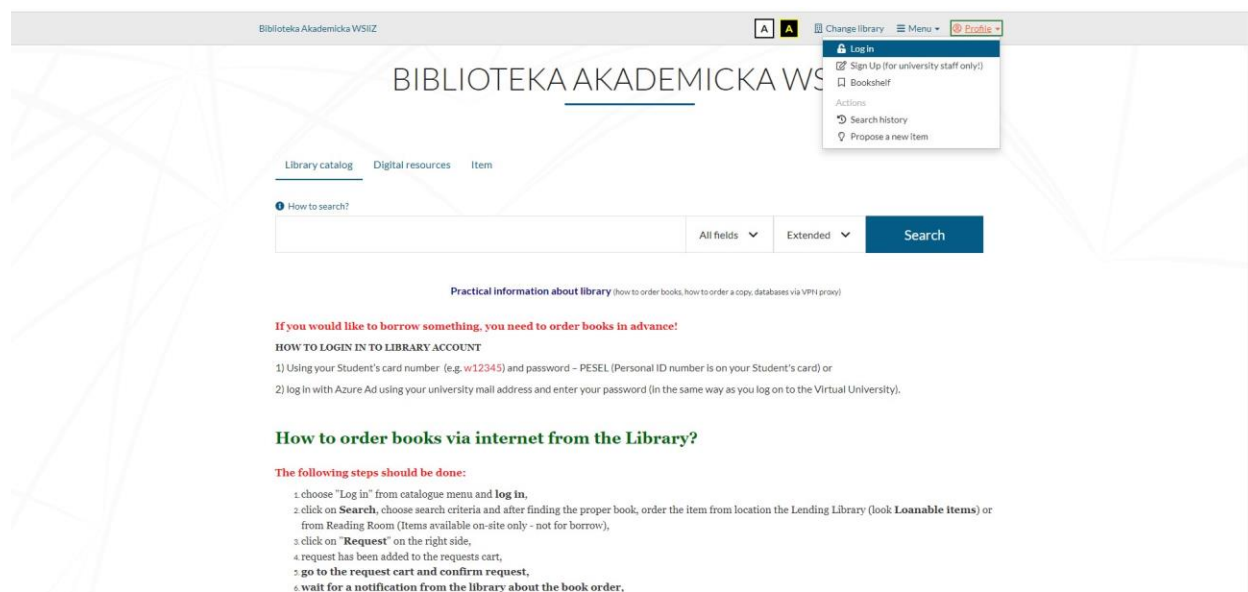

<https://biblioteka.wsiz.rzeszow.pl/integro/site/startpage>

If you would like to borrow something, you need to order books in advance.

It is possible to change the language in the menu. You can choose between polish, english or ukrainian language.

How to login in to library account

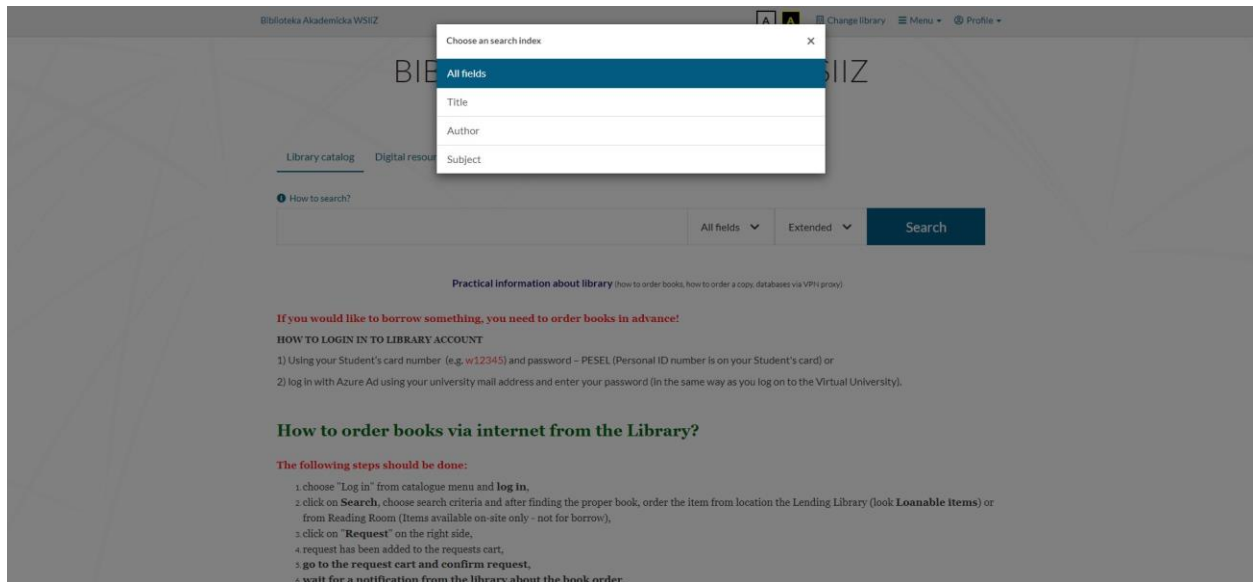

1) Using your Student's card number (e.g. **w12345**) and password – PESEL (Personal ID number is on your Student's card) or

2) log in with Azure Ad using your university email address and enter your password (in the same way as you log on to the Virtual university).

Search by all fields

The Integro catalogue provides the possibility to search by the entire bibliographic description. By selecting "All fields" we can search any set of words from the entire description (title, author, series, year of publication, etc.).

Search by author and title

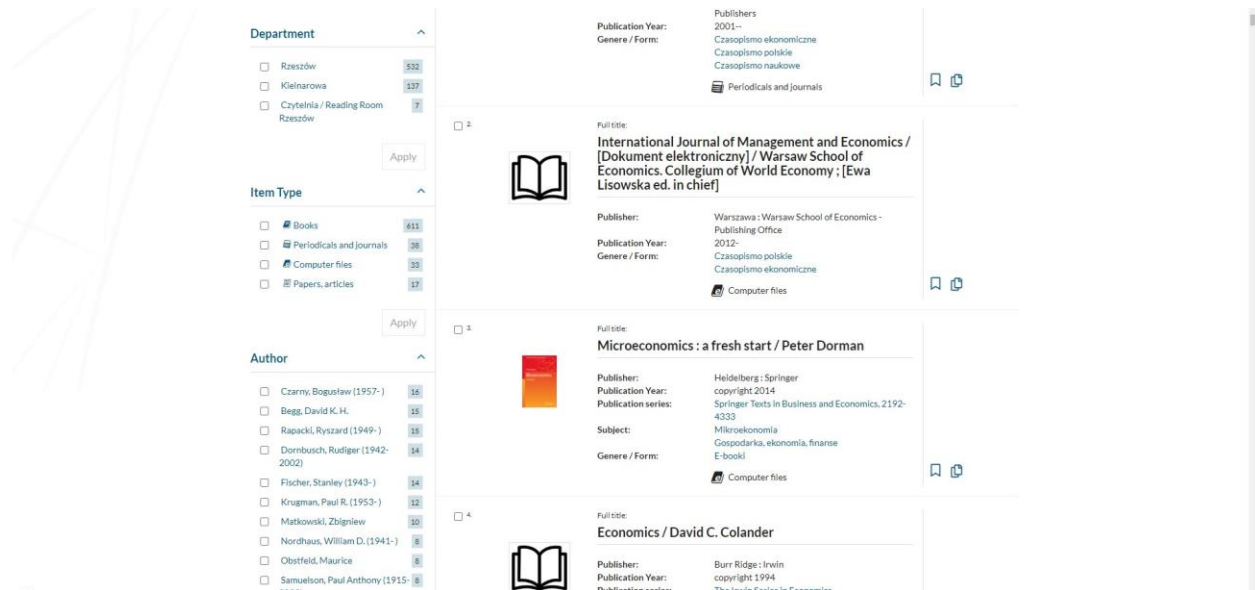

We use the "**Author**" and/or "**Title**" fields when searching for a specific author and/or title.

Search by subject

Use the "**Subject**" field to search for publications in a particular field without knowing the author and/or title. Enter the keyword you are interested in and the system will display the keywords found and, together with the suggested terms, narrow down the search term.

Searching by different criteria

Integro makes it possible to find publications using the sorting function of the search results using different criteria. The selection can be made using the SEARCH RESULTS extracted in the left panel of the Integro interface divided into sections.

Data source - results in library catalog or in digital resources,

Library - list of the two libraries forming the consortium,

Department - the library that has the book in question in its collection,

Item type - books, periodicals and journals, computer file, papers or articles ect.,

Author,

Subject,

Publication year and Period of creation,

Domain,

Genre - books, ebook, article, journals etc,

Target groups,

Characteristics of author,

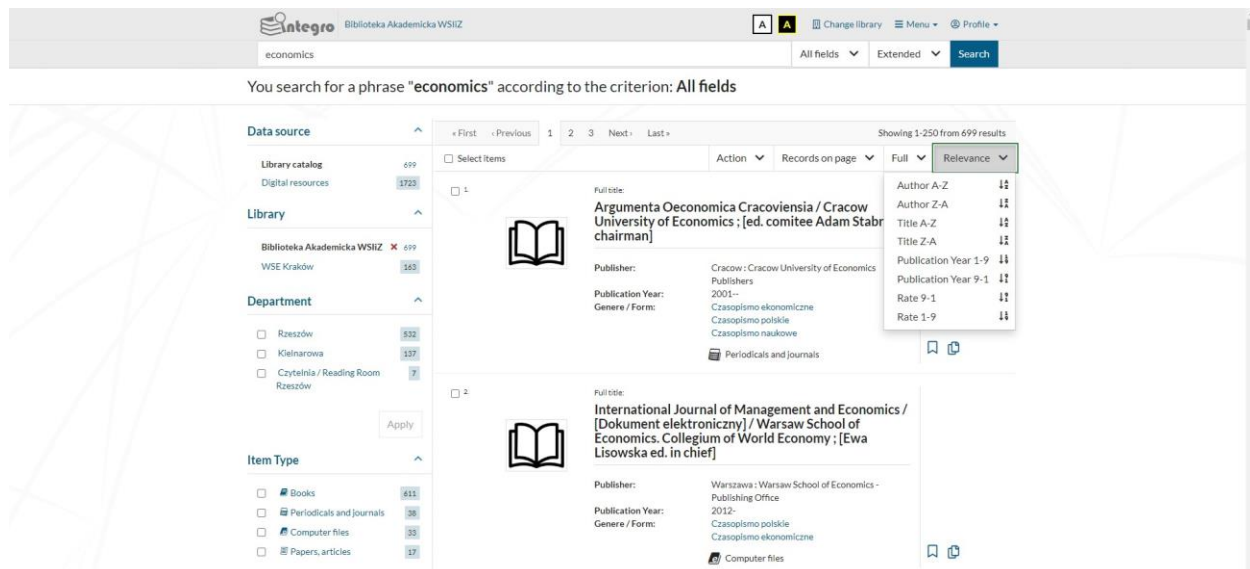

Language,

Country,

Shelving location - place where the document is stored in the Library,

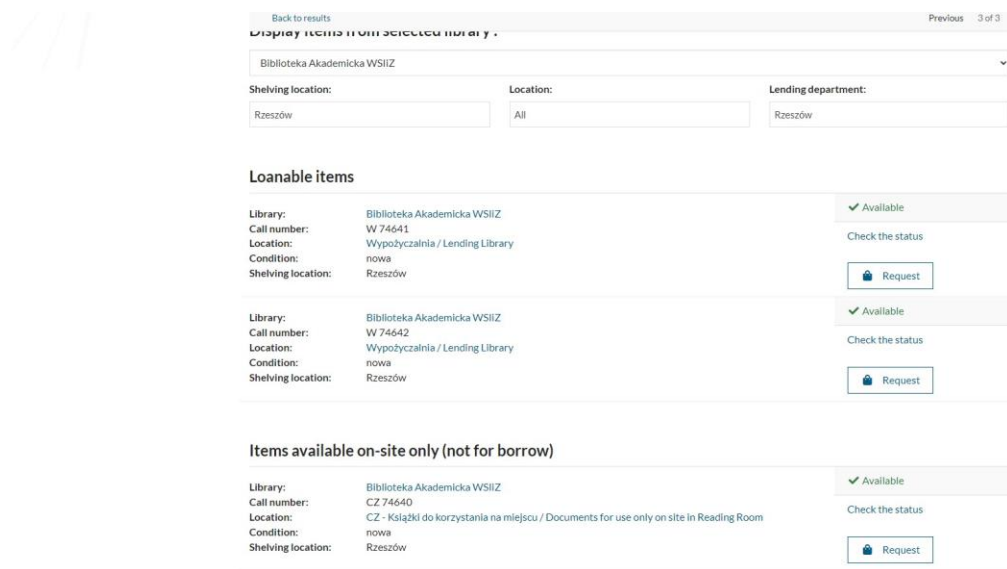

Location

Media type, carrier type, content type.

The results can be sorted by: relevance of author, title and year of publication, rating each time sorting in ascending or descending order.

Added to cart

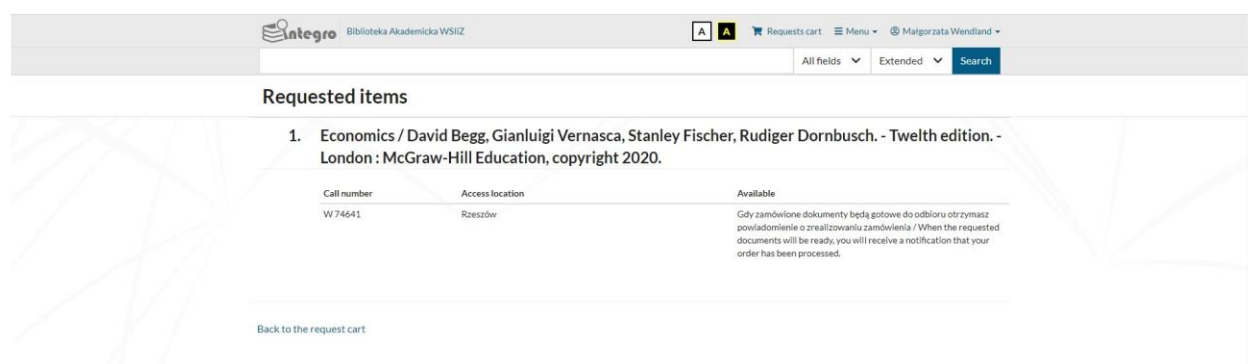

Request has been added to the requests cart

[Go to the request cart](#) [Continue browsing](#)

After clicking on the "Request" button, the system redirects the reader to the request cart.

Here you can send your order by clicking on “Confirm request” or “Cancel request”.

Once the order has been sent, the system will display a message about the expected time for processing the order and delivering the document to the selected point.

How to renew books online

To renew your books online **you must log in to your account**. Your online library account lists the items you have borrowed with their due dates.

Information
Renewal of lent items (excluding accessed items). Library departments are treated as joint units. Item renewal is not possible, if the item is overdue or the user has unsettled debts in the library / lending dept.

Prolong all

#	Title	Date of return	Action
1	Economics / David Begg, Gianluigi Vernasca, Stanley Fischer, Rudiger Dornbusch. - Twelfth edition. - London : McGraw-Hill Education, copyright 2020.	21/10/2022	Information

To renew an item:

- all items borrowed by the reader must not be overdue in a certain lending department;
- the sum of all fines and fees must be equal to 0 (zero) in a certain lending department.
- if any of above conditions are not fulfilled, the item cannot be renewed and instead of a "Renew" link, "Info" link will be available. After clicking the link, the reader will get a page with an explanation why the item cannot be renewed.

To renew an item (books) please click "Prolong" or "Prolong all" link

Check the status

Reservation queue: 0

After selecting the "Book" button, the possibility of reserving any copy or copies from the selected agency (Rzeszów or Kielnarowa) appears. In the next step, the reader sets a waiting period for the book and, once approved, has the document reserved.

Once the book is returned by the reader currently in possession of it, the reserved document will be transferred to the account in the "Requested items → Unsent" tab.

You will then need to send a request for this book according to the ordering procedure described earlier.

How to order a copy

After logging in to the INTEGRO catalog it is possible to order document scans.

You can order 4 scans of 30 pages each.

Specify the page range (from page ... to page ...)

Comments

Comments

Agreement (required)

☐ I declare that materials prepared in the form of a scan will be used for educational purposes.

Regulations (required)

☐ You can order 30 pages and up to 4 scans at a time. You can order scans of individual book chapters or articles. Remember that due to copyright law you cannot order a copy of the entire publication, even if you divide the order into smaller parts. I declare that knowledge of the terms of using the scans ordering service is familiar to me.

Order

It is obligatory to specify the **page range** field, optionally the reader can also write his comments to the order (we give the range of pages, e.g. 45-56). All agreements should also be checked.

After completing all mandatory fields click "**Order**" button. After sending the order, the reader is automatically moved to the tab **Reprographic orders / Scans**, where he can see details of his order.

Downloading scans

The completed and sent order is received by the reader after logging in to his account in INTEGRO or in the mobile application. The reader is informed that the materials are already available for collection: by e-mail and by notification in INTEGRO catalog.

Scans are ready to be collected on your user account in the tab Reprographic orders -> Scans. After selecting the option Actions -> Download

E-book lending library

In the INTEGRO catalog, readers can search for e-books (limited by the e-book format facet see the menu on the left → **Item format** → **ebook format**), check their availability and borrow to their account or reserve unavailable copies.

After selecting the option "Items" - the reader has the possibility to borrow online. If a copy is currently unavailable, the reader can reserve it. Access to lending and reserving options is dependent on the reader's agendas and limits. Borrowing a copy is done by selecting the button **"Borrow online"**.

When the reader selects **Browse PDF**, a new tab opens with a viewer that displays the PDF file. The tool does not allow for: print, saving the file, copying the text.

Returns of eBooks

Returns of ebooks take place without a librarian. The reader can perform the return in the ACCOUNT → Borrowed documents section → Actions → Return.

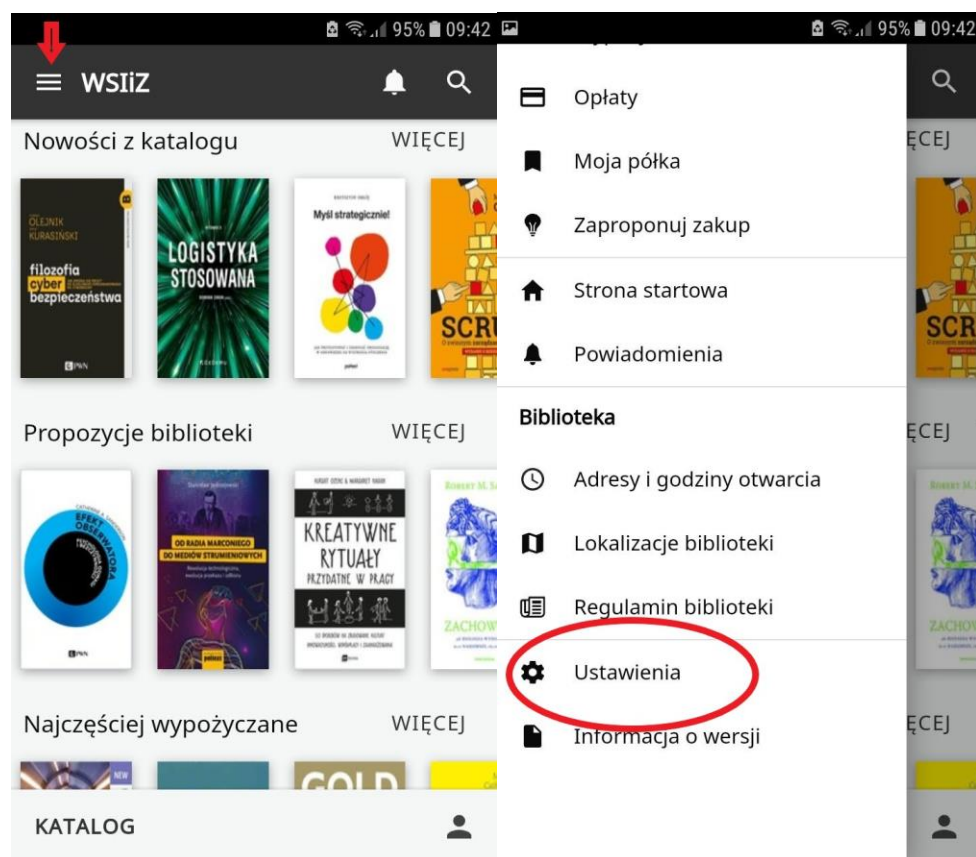

Mobile App

Download the free mobile application and operate the library catalog on your mobile device faster and more conveniently.

[Play Google](#)

[App Store](#)

After logging please choose **USTAWIENIA (settings)** and change language (you can choose english or ukrainian version)!

After logging in to the application using the data from the reader's account, the user of the application can:

- search the catalog,

- order and reserve library materials for rental,
- read library resources available online,
- check the status of materials in his account.

Remote access to resources

The UITM Laboratories platform (lab.wsiz.pl) allows access to websites otherwise available only at the University, also through computers outside the University. In order to have access to the lab.wsiz.pl platform, you need to have an active student or employee account in Active Directory.

In the case of technical problems with access to the resources, please contact:

it@wsiz.edu.pl

Resources available through the lab.wsiz.pl platform:

IBUK LIBRA  **PWN**

[IBUK Libra](#) is Poland's largest full-text website of academic textbooks and science books. The university network offers books selected by the Lazarski University, mostly compulsory reading at the faculties of Economics and Management, Medicine, and Law and Administration.

 **EBSCOhost**

EBSCO

EBSCO databases are the most-used, premium online information resources for tens of thousands of institutions worldwide, representing millions of end-users. Interdisciplinary platform delivers human content.

Academic Search Complete (EBSCO)

Multidisciplinary database is a leading resource for scholarly research. It supports high-level research in the key areas of academic study by providing journals, periodicals, reports, books and more.

Business Source Complete (EBSCO)

With premium full-text content and peer-reviewed business journals, this database is an essential tool for business students. It covers all disciplines of business, including marketing, management, accounting, banking, finance and more.

ERIC

ERIC, the Education Resource Information Center, provides access to education literature and research. The database provides access to information from journals included in the Current Index of Journals in Education and Resources in Education Index. Content includes journal articles, research reports, curriculum and teaching guides, conference papers, dissertations and theses, and books dating back to 1966.

European Views of the Americas: 1493 to 1750

This new bibliographic database is a valuable index for libraries, scholars and individuals interested in European works that relate to the Americas. EBSCO Publishing, in cooperation with the John Carter Brown Library, has created this resource from "European Americana: A Chronological Guide to Works Printed In Europe Relating to The Americas, 1493-1750," the authoritative bibliography that is well-known and respected by scholars worldwide. The database contains more than 32,000 entries and is a comprehensive guide to printed records about the Americas written in Europe before 1750.

GreenFILE

GreenFILE offers well-researched information covering all aspects of human impact to the environment. Its collection of scholarly, government and general-interest titles includes content on global warming, green building, pollution, sustainable agriculture, renewable

energy, recycling, and more. The database provides indexing and abstracts for more than 384,000 records, as well as Open Access full text for more than 4,700 records.

Health Source - Consumer Edition

This database is the richest collection of consumer health information available to libraries worldwide, providing information on many health topics including the medical sciences, food sciences and nutrition, childcare, sports medicine and general health. Health Source: Consumer Edition provides access to nearly 80 full text, consumer health magazines.

Health Source: Nursing/Academic Edition

This database provides nearly 550 scholarly full text journals focusing on many medical disciplines. Health Source: Nursing/Academic Edition also features the AHFS Consumer Medication Information, which covers 1,300 generic drug patient education sheets with more than 4,700 brand names.

Library, Information Science & Technology Abstracts

LISTA indexes more than 560 core journals, nearly 50 priority journals, and nearly 125 selective journals; plus books, research reports and proceedings. Subject coverage includes librarianship, classification, cataloging, bibliometrics, online information retrieval, information management and more. Coverage in the database extends back as far as the mid-1960s.

AHFS Consumer Medication Information

AHFS Consumer Medication Information is a trusted source and recognized standard for patient drug information, available in both English and Spanish. Published by the American Society of Health-System Pharmacists, AHFS includes more than a thousand drug information monographs written in lay language for consumers and has been a Top Ten Award Winner in the Department of Health and Human Services National Consumer Education Materials Contest. This content is updated monthly.

Agricola

This database contains bibliographic records from the U.S. Department of Agriculture's National Agricultural Library. Coverage for AGRICOLA dates back to 1970 and includes more than 4.8 million citations. The citations are comprised of journal articles, monographs, theses, patents, software, audiovisual materials, and technical reports related to agriculture.

MasterFILE Premier

Designed specifically for public libraries, this multidisciplinary database provides full text for nearly 1,700 periodicals with full-text information dating as far back as 1975. Covering virtually every subject area of general interest, MasterFILE Premier also contains full text for nearly 500 reference books and over 164,400 primary source documents, as well as an Image Collection of over 592,000 photos, maps & flags. This database is updated daily via EBSCOhost.

MEDLINE

MEDLINE provides authoritative medical information on medicine, nursing, dentistry, veterinary medicine, the health care system, pre-clinical sciences, and much more. Created by the National Library of Medicine, MEDLINE uses MeSH (Medical Subject Headings) indexing with tree, tree hierarchy, subheadings and explosion capabilities to search citations from over 5,400 current biomedical journals.

Newspaper Source

Newspaper Source provides cover-to-cover full text for more than 40 (U.S.) & international newspapers. The database also contains selective full text for 389 regional (U.S.) newspapers.

In addition, full text television & radio news transcripts are also provided.

The EBSCO Academic Research

Ebsco Academic Research database is a multi-disciplinary database containing

- over 240 000 electronic books,
- over 3 500 international journals, including about 350 Polish scientific journals

Topics covered include, among others: psychology, humanities, applied sciences, social sciences, education, mathematics, medical sciences, natural sciences, language learning aids, dictionaries and lexicons, political sciences, environmental protection, law, literary criticism, business and economics, chemistry, informatics, engineering and many others.

[EBSCO eBooks™ Open Access Monograph Collection](#)

A DRM-free collection of e-books, freely available on the EBSCOhost® platform.

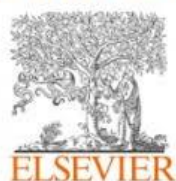

The collection has been developed in partnership with university and academic publishers such as University of Michigan Press, Taylor & Francis and Temple University Press to provide libraries and end users with choice and access to a wide range of discoverable content that will grow in the thousands. With this collection, libraries gain access to all current and future DRM-free OA ebooks on the EBSCO platform, providing users with consistency with other ebooks in the library's collection.

[EBSCOhost Basic Search - Tutorial](#)

[EBSCOhost Advanced Searching - Tutorial](#)

[Downloading EBSCO eBooks to Your Mobile Device - Tutorial](#)

ScienceDirect

[ScienceDirect \(Elsevier\)](#)

ScienceDirect is a leading full-text scientific database offering journal articles and book chapters from more than 2,500 peer-reviewed journals and more than 11,000 books. There are currently more than 9.5 million articles/chapters, a content base that is growing at a rate of almost 0.5 million additions per year.

[Springer](#)

SpringerLink is one of the world's leading online information services for scientific, technical and medical books and journals. You can access more than 1,300 journals with full-text (marked with green key) on the following subjects: behavior science, business and economics, humanities, social sciences and law, computer science, mathematics and statistics.

Wiley Online Library

[Wiley Online Library](#)

The broadest and deepest multidisciplinary collection of online resources covering life, health and physical sciences, social science, and the humanities. It delivers seamless integrated access to over 4 million articles from 1500 journals, almost 10,000 online books, and hundreds

[Nature](#)

The world's most highly cited interdisciplinary science journal.

[Science](#)

The world's leading journal of original scientific research, global news, and commentary. In this section we offer some basic information specific to the magazine and its Web content.

[Bibliographic data bases](#)

[Web of Science](#)

[Trainig portal](#)

Explore the world's leading citation database with multidisciplinary coverage of over 10,000 high-impact journals in the sciences, social sciences, and arts and humanities, as well as international proceedings coverage for over 120,000 conferences. Powerful tools include cited reference searching, Citation Maps, and the Analyze Tool.

[Scopus](#)

A multidisciplinary database of abstracts and citation in the field of mathematical-natural sciences, technical, medical and humanities. The Scopus database also provides the Hirsch index, which is calculated based on publications from the 1970s.

[Elsevier Training Hub](#)

[SciVal](#)[InCites](#) - [what is?](#)

Note! Every user who wants to use the tool must have a personal account on the Web of Science platform.

You can create an account by selecting "Sign In" and then "Register" in the menu, see the compendium: Access and Login tab. Note: Users who already have a personal Web of Science account should log out of their Web of Science account before entering InCites for the first time, then clear their browser details, and log in directly via the InCites website with the login and password of their personal Web of Science account.
