My Erasmus Traineeship Journey

I spent three unforgettable months in Girona for my Erasmus traineeship, together with my sister. Girona felt like a comfortable, inspiring place - perfect for learning, exploring, and enjoying life in Catalonia. During this time, I gained valuable professional experience and shared countless memorable moments with my sister.

To celebrate our achievements and enjoy some quality family time, my mom joined us, and we went on a cruise trip. We visited Barcelona, Marseille, and Genoa, discovering new cities, cultures, and breath-taking views along the way. One of the most special moments was celebrating my mom's birthday together on the trip - a memory I will always cherish.

Erasmus wasn't just about work or studies. It was a journey full of discoveries, adventures, and unforgettable experiences, shared with people who made it truly special. Girona, family adventures, and moments like these will always stay with me.
