COMPUTER SCIENCE

BSc

WHAT IS COMPUTER SCIENCE

Shape the future of business with digital finance

A **BSc in Computer Science at UITM** gives you the technical expertise and innovative mindset to design, develop, and manage modern computing systems. The programme builds your problem-solving, programming, and analytical skills while preparing you to apply technology to real-world challenges in business, communication, and industry. You'll learn to design networks, manage databases, and explore areas such as cybersecurity, AI, and software development.

You will gain hands-on experience using technologies from global leaders such as Microsoft, Oracle, Google, Apple, and Cisco. With a strong focus on creativity, critical thinking, and digital innovation, you'll be ready to develop solutions that make an impact in today's fast-evolving tech landscape.

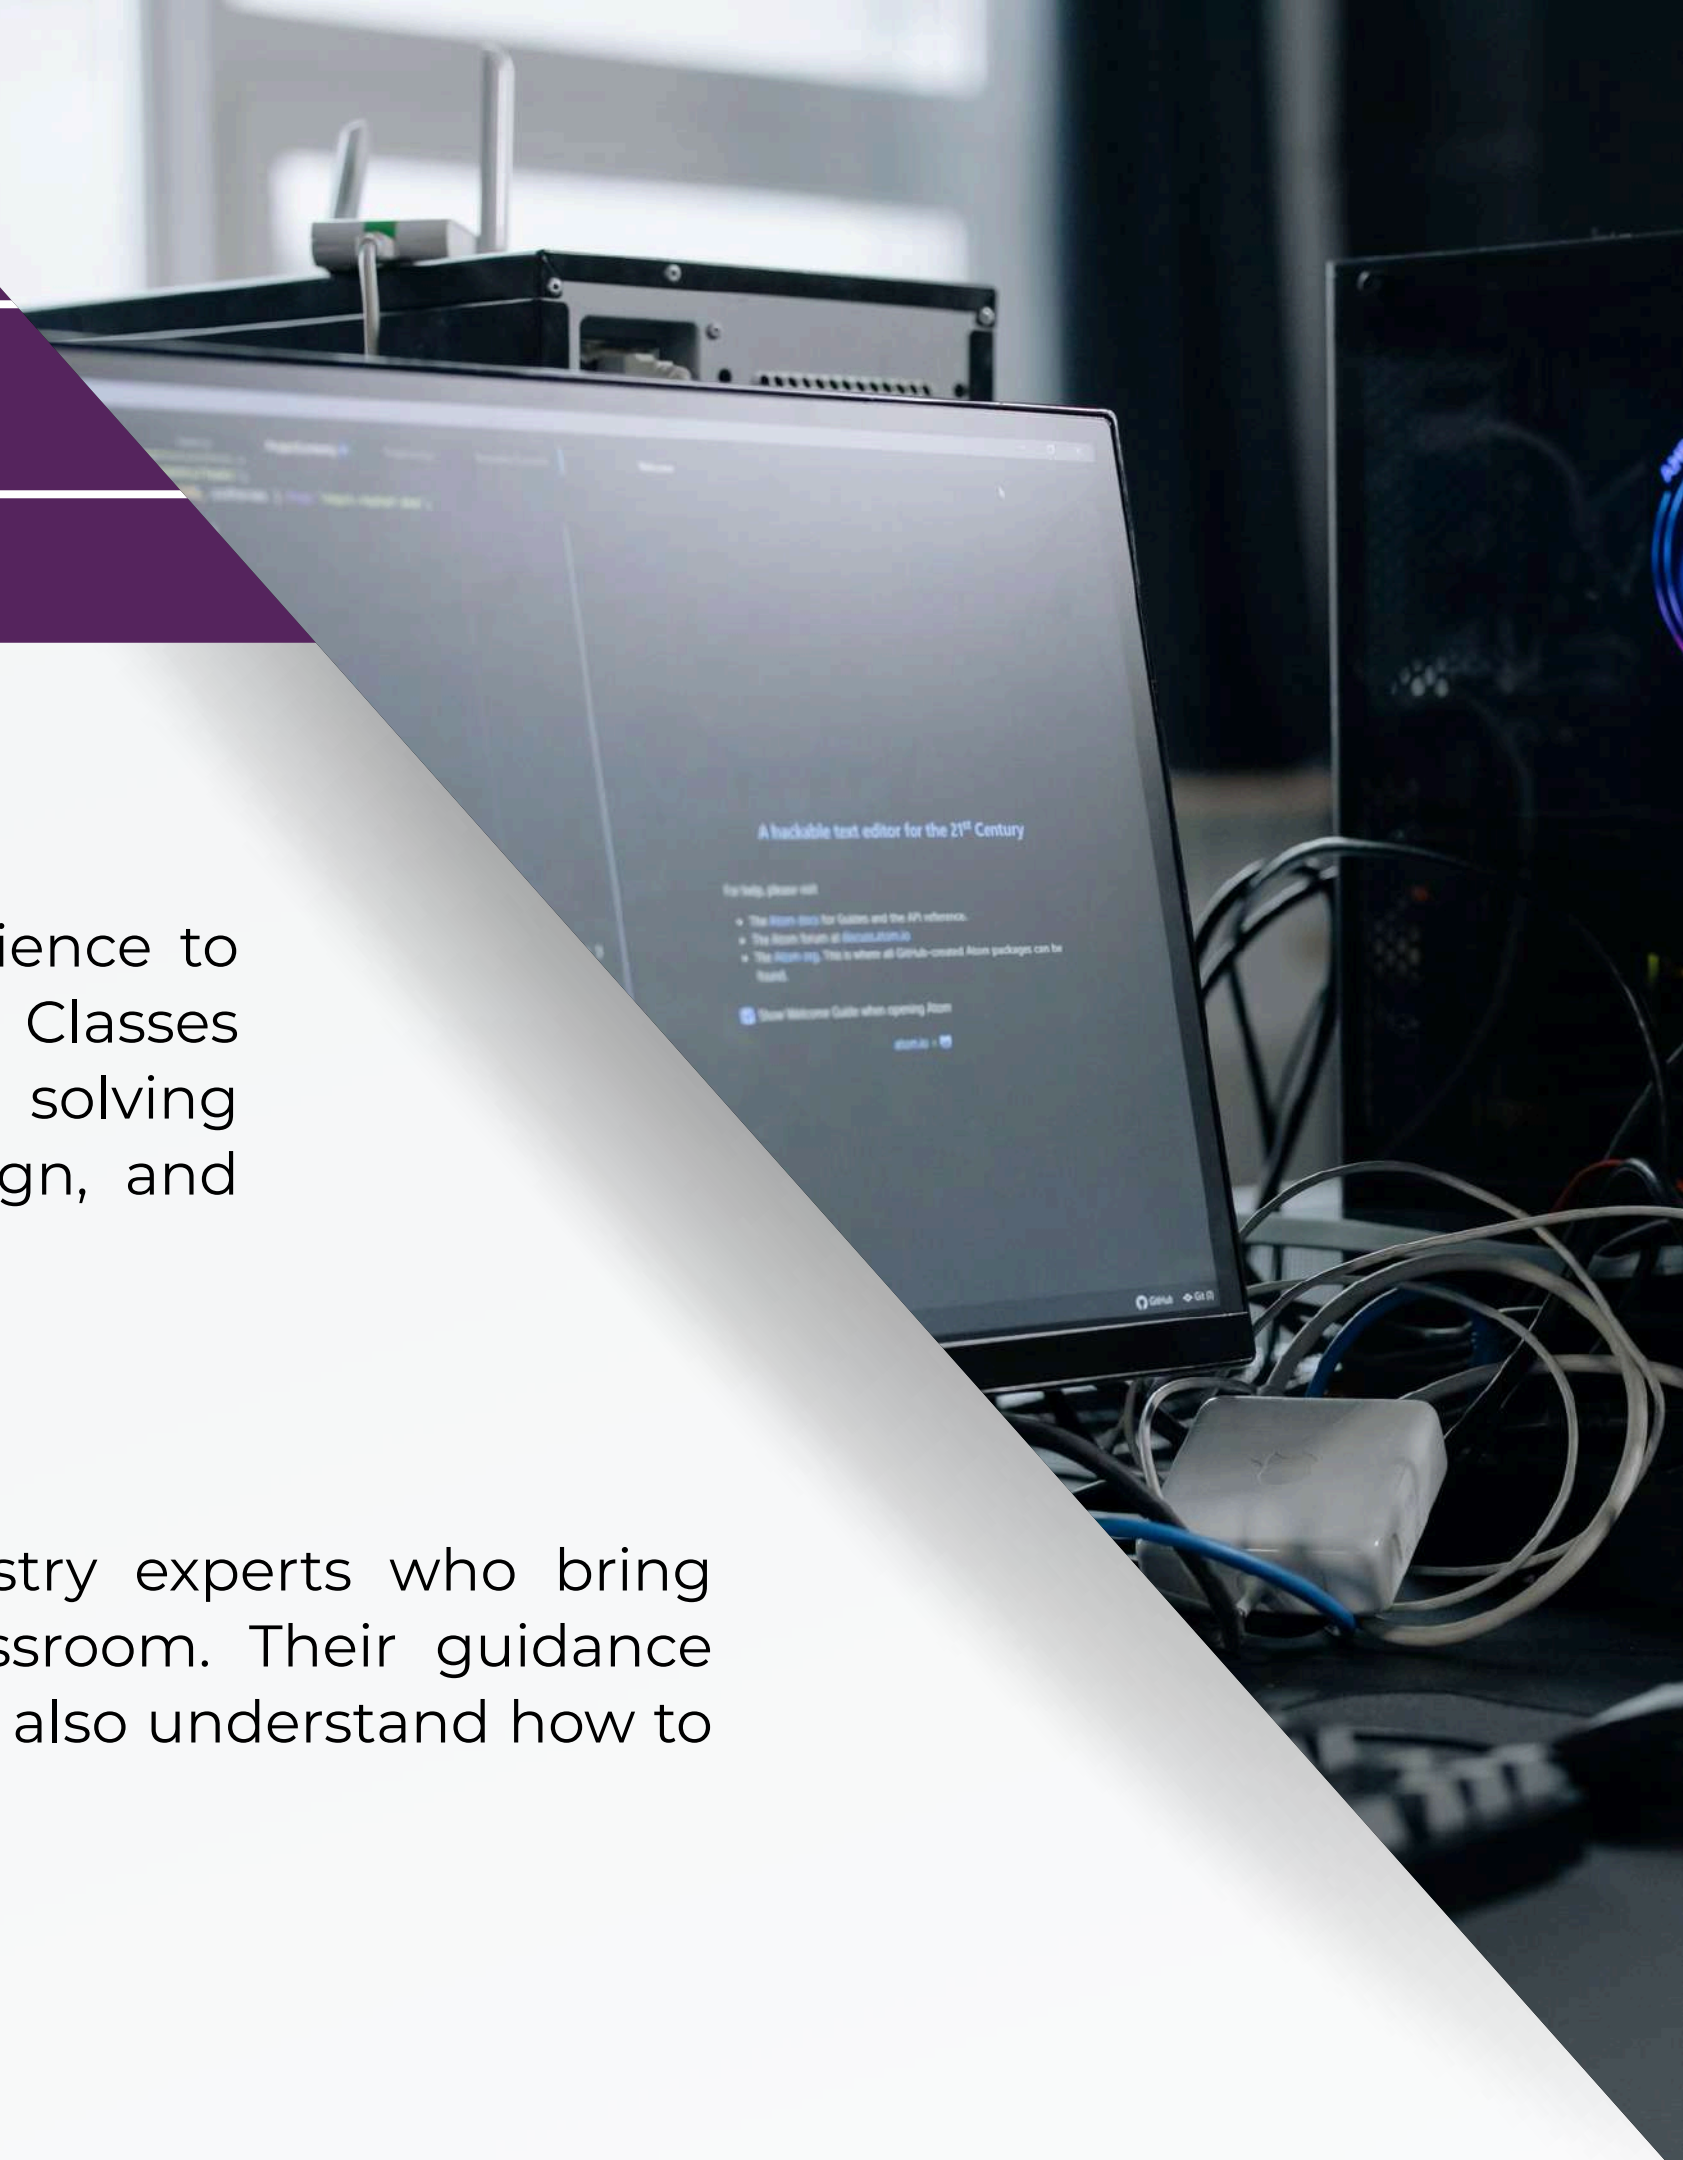

THE WAY WE TEACH

At **UITM**, we combine theory with hands-on experience to prepare you for a successful career in technology. Classes take place in modern computer labs and focus on solving real-world problems through coding, system design, and teamwork.

You'll learn from experienced lecturers and industry experts who bring current IT trends and tools directly into the classroom. Their guidance ensures that you not only master technical skills but also understand how to apply them effectively in today's digital world.

REASONS TO STUDY

Certification

Earn an internationally recognised BSc in Computer Science, confirming your competence in programming, system design, and IT solutions.

Experience

Learn from international lecturers and industry professionals who bring real-world knowledge from leading global tech companies.

Practice

Gain hands-on experience in modern computer labs using tools and technologies from Microsoft, Oracle, Google, Apple, and Cisco.

Opportunity

Prepare for a global career in software development, cybersecurity, data analysis, and IT management with access to internships and industry networks.

EXAMPLE SUBJECTS

Databases

Operating Systems

Software Engineering

Algorithms & Data Structures

Internet of Things

Advanced Network Technologies

CAREER OPPORTUNITIES

» **Network Administrator**

» **Web Developer**

» **Software Developer**

» **IT Project Manager**

» **System Analyst**

» **Database Administrator**

» **Cloud Solutions Specialist**

» **IT Consultant**
